

UNIGATE

UNILOGIC Universal programming module

Display backlight
2x8 characters
Readable even if inclined

- ▶ Digital control unit
- ▶ One model 90V to 265V

- ▶ Built-in programmable battery back-up
- ▶ Timer two relays programmable
- ▶ Large display backlight
- ▶ Manages linear encoder (Position Gate)
- ▶ 2x8 characters display
- ▶ Heater management hydraulic motors

- ▶ 2 relè programmabili
- ▶ Gruppo di continuità programmalibile integrato
- ▶ Display retrorillimitato
- ▶ Gestione encoder lineare (Position Gate)
- ▶ Display 2x8 caratteri
- ▶ Gestore riscaldatore motori idraulici

Power Module

2PM

for AC motors with capacitors

manage up to
4 motors with 2 2PM
modules

24V

for 24V motors

FV MODULE

for Threephase motors

 **INVERTER technology**

to manage
1 motor

to manage
2 motors

BR MODULE

for Brushless motors DC (36V)

 **BRUSHLESS technology**
